TOOL SHIELD

THE TOOL SHIELD CHECKLIST · Tools & equipment inventory worksheet

Nick Martinez Insurance
HVAC

Business name _____ **Trade** _____ **Date** _____

Your general liability policy covers damage you do to **other people**. It does **not** cover your own tools. Use this sheet to list your gear so you know what you would need to replace, and what to insure.

> **Two ways to cover gear (they combine): Scheduled** = each item over $2,000, listed by name. **Unscheduled** = items under $2,000 each, covered up to the total limit you choose without naming them. Example: $10K zero-turn scheduled + $10K unscheduled = $20K total.

FULL INVENTORY: 143 items HVAC pros own. Check everything you have; most people forget items they never thought to insure.

WHERE YOUR GEAR IS AT RISK

In the truck

Smash-and-grab at gas stations, lunch stops and overnight in the driveway. Trailers get hitched up and gone in minutes.

On the job site

Most tool thefts happen in the field: open trailers, unattended job boxes, gear left in the yard.

At the shop

Break-ins, fire and storm damage. Many policies only cover tools here. Tool Shield covers truck, job and shop.

Tips: write down serial numbers · keep receipts in your phone · update this list when you buy new gear.
